Vectordrive telemetry data format

Items:

- session_start
- session_end
- stats
- status
- phone_signal_strength
- phone_cell_location

session_start

Created once on start of new session

```
{
        "type": "Feature",
        "properties": {
                "deviceModel": "OPPO CPH2211",
                "androidVersion": 33,
                "systemVersion": "13",
                "app": "com.locatienet.onderweg 2.3.5 285",
                "deviceName": "OPPO A94 5G",
                "versionName": "2.3.5",
                "versionCode": 285,
                "vehicleType": "PASSENGER_CAR",
                "network": "",
                "timestamp": 1683617633702
        }
}
```

session_end

Created once on end of session

```
{
        "type": "Feature",
        "geometry": {
                "type": "Point",
                "coordinates": [ 4.3099933, 52.0565183 ]
        },
        "properties": {
                "deviceModel": "OPPO CPH2211",
                "androidVersion": 33,
                "systemVersion": "13",
                "app": "com.locatienet.onderweg 2.3.5 285",
                "deviceName": "OPPO A94 5G",
                "versionName": "2.3.5",
                "versionCode": 285,
                "vehicleType": "PASSENGER_CAR",
                "network": "",
                "speed": 1.339101E-6,
                "bearing": 0,
                "accuracy": 6,
                "timestamp": 1683617876216
        }
}
```

stats

Created once on end of session

```json
{
        "type": "Feature",
        "geometry": {
                "type": "Point",
                "coordinates": [ 4.8985218, 52.3755604 ]
        },
        "properties": {
                "cam": 5391,
                "vam": 0,
                "denm": 0,
                "interval": 599498,
                "speed": 0.003020893,
                "bearing": 288,
                "accuracy": 4,
                "network": "4G",
                "timestamp": 1683544744256
        }
}
```

status

Created every 5 seconds during session

```json
{
        "type": "Feature",
        "geometry": {
                "type": "Point",
                "coordinates": [ 4.8984815, 52.3755607 ]
        },
        "properties": {
                "latency": 101,
                "published": 45,
                "arrived": 45,
                "interval": 5000,
                "speed": 0.004686059,
                "bearing": 0,
                "accuracy": 10,
                "network": "4G",
                "timestamp": 1683545344179
        }
}
```

phone_signal_strength

Created on android event onSignalStrengthsChanged during session with a max of 0.2Hz

```json
{
        "type": "Feature",
        "geometry": {
                "type": "Point",
                "coordinates": [ 4.8984803, 52.3755597 ]
        },
        "properties": {
                "rsrp": -99,
                "rsrq": -11,
                "rssnr": 14,
                "level": 3,
                "signal": "LTE",
                "speed": 0.011163491,
                "bearing": 0,
                "accuracy": 10,
                "network": "4G",
                "timestamp": 1683545319198
        }
}
```

phone_cell_location

Created on android event on onCellLocationChanged during session

```json
{
        "type": "Feature",
        "geometry": {
                "type": "Point",
                "coordinates": [ 4.8984655, 52.3755707 ]
        },
        "properties": {
                "cellId": 25768747,
                "lac": 21503,
                "psc": 0,
                "speed": 0.19228064,
                "bearing": 98,
                "accuracy": 11,
                "network": "4G",
                "timestamp": 1683544152830
        }
}
```
